Art Unit: 1651

1. Receipt is acknowledged of the election response filed December 05, 2001.

2. Claims 36-44 are pending in the instant application.

3. Claims 39-40 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 6.

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 36-38 and 41-44 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Martin et al U.S. 6,083,729.

Art Unit: 1651

The reference is considered to anticipate the claimed inventions in view of the broad disclosure which includes the separation of polyhydroxyalkanoates from plants that also includes the disclosure of transgenic oil crop plants. In the event that the disclosure is not considered to be anticipatory based on persuasive arguments or appeals, the reference disclosure would have rendered the claimed process steps prima facie obvious to one of ordinary skill in the art based on the strong motivation to employ transgenic oil crop plants to form the polyhydroxyalkanoates. All other limitations would have been prima facie obvious in the absence of unexpected or unobvious process steps.

5. **No claim is allowed.**
